Effort of Professionals to Enliven the Market Results in Com-

plete Failure.

New York, Aug. 4.-There was no strong influence at work in to-day's stock market, and the rate of activity fell away to about the dullest of the year. The closing of the London Stock Exchange was only a slight factor in the duliness. The consideration of the future of the local money market was a more effective consideration. Last week's loan increase has brought the loans of the New York Clearing-house banks to a total of over \$919,000,000, which is \$41,000,000 in excess of those of a year ago. Deposits are only about a million greater, but the cash reserves are about eight millions less than a year ago and the surplus reserves about eight millions less.

Trust Companies Important. But the condition of the New York trust companies is of greater importance now than ever before, in estimating the money situation, their deposits on June 20 of \$750,situation, their deposits on June 20 of 5760,090,000, comparing with \$557,000,000 in the
banks on the same date. Comparative
figures show that trust company loans on
collateral and on personal security were
over \$350,000,000, compared with \$547,000,000 a
year ago, while the actual cash on hand reported by these institutions on June 20 was
only \$2,238,110, or not quite a million greater
than last year. The enormous expansion of
the business of the trust companies is the
key to the cautious feeling which gains
force as the period approaches for the interior demand for currency.

To-day's developments seem to show that
the outward movement of gold is over for
the present, owing probably to the success
attending the French rente conversion
plain Discounts in Paris to-day fell to near
2 per cent and an advance in the sterling
rate there indicated renewed remittances
to London to be placed in the loan market
there.

Few Stocks Show Signs of Life. Aside from this general repressive influence only a few stocks were affected by individual causes. The iron and steel group had some advantage from the brilliant trade prospects, the strong semiannual report of the Republic Steel Company, rumors of coming developments concerning the Pressed Steel Car Company, and inspired intimations of large earnings for July by the United States Steel Corporation. The Government's favorable estimates of the August I cotion condition had some effect on cotton-carrying railroads, and an attempt was made to advance the coalers on the idea that coal mining may be resumed soon. But the effect was only transitory. Profit-taking by the room tradern who had been the only buyers, caused prices to retrace their course. One or two stiffened up at the last, notably Texas and Pacific, but the closing was dull and irregular. port of the Republic Steel Company, rumors Texas and Pacine, but the and a feverish and irregular.

There was a violent fise and a feverish reaction in the Central of Georgia income bonds. Otherwise there was no feature in the bond market. Total sales, par value, \$1.112.000. United States bonds were un-

Wall Street Gossip. Reported by the New York Commercial Advertiser through Francis, Bro. & Co., No. 214 North Fourth street;
London was closed; no arbitrage operations in this market to-day.

Early strength in United States Steel shares was on buying by T. J. Taylor & Co., H. Content & Co. and others, believed to be acting for the syndicate. There was a report said to come from a prominent insider that the net earnings of the company for July would amount to more than \$12,000,000, which would compare with \$3.685,151 in the corresponding month last year.

One of the early features was the strength of anthracites, principally Reading, in which the heaviert buying was by H. Content & Co. Long stock appeared to come out in some quantity at the top level.

Delaware and Hudson rose sharply on wha was declared to be the execution of an investment-buying order.

WOMAN MISSING FOUR DAYS. Mrs. Josephine James Left Home

Friday Without Warning. Mra Josephine James, 44 years, who lived at No. 5744 Chamberlain avenue, has been missing from that place since last Friday. Her brother, George Carver, of Craw-

day. Her brother, George Carver, of Crawfordville, Ind., has telegraphed the local police to make every effort to locate her.

A theory entertained by the police is that she might be the woman who was seen to jump in the river at the foot of East Grand avenue yesterday morning, but this does not seem plausible. Mrs. James is older than the woman who committed suicide, and is a Methodist, whereas every indication is that the other woman was a German Catholic.

Mrs. James rented the lower floor of the house on Chamberlain avenue from S. C. McCormick, whose office is in the Koken building, and who lives in the upper story of the Chamberlain avenue residence. She has lived in McCormick's house three months, having previously tyed on Vernon avenue in Cabanne. Louis Kirk, whose office is in the Walnright building, took his meals at the home of Mrs. James, and was astonished when he returned to her flat on Friday evening to find sice had gone.

She is about 5 feet 3 inches tall, weighs gone.

She is about 5 feet 3 inches tall, weighs about 140 pounds, has brown hair and eyes, wore a black hat, and white duck skirt.

STRUCK OIL NEAR HOUSTON. Patillo Higgins Expects a Large Gusher.

REPUBLIC SPECIAL. Beaumont, Tex., Aug. 4.-Pattillo Higgins, who discovered oil at Spindletcp, stated this who discovered oil at Spindletop, stated this afternoon that he had strack oil at Barkers Hill, near Houston, where he has been drilling for some time. He is not yet into the oil land, but he showed samples of oil that has oozed through the cap rock. It is of a particularly good quality. He is confident that the piercing of the cap rock will bring out a gusher equal or superact to any Spinditop gusher. The well is down 851 feet.
